Shubhankhi Mohapatra

PRODUCT DESIGNER | UX/UI DESIGN

Bengaluru, India | shubhankhi31298@gmail.com | Portfolio | LinkedIn

Product designer with four years of enterprise systems experience at Accenture. Brings systems thinking to UX, translating complex manufacturing and supply-chain workflows into clear interactions, role-aware experiences, and interactive prototypes.

EXPERIENCE

Accenture | Bengaluru, India | Feb 2021 – Dec 2024

Senior Analyst (Jun 2024 – Dec 2024) | Analyst (May 2022 – May 2024) | Associate (Feb 2021 – Apr 2022)

- Co-developed functional specifications for a forecast-upload enhancement, defining logic and validation rules with a senior consultant; partnered with ABAP developers through integration testing, UAT, business sign-off, and knowledge transfer for 15+ planners across 6+ sessions, reducing manual forecasting effort by 25%.
- Diagnosed and resolved 20+ SAP production incidents weekly across configuration, master data, integrations, and access; corrected recurring configuration and data issues, reducing recurring incidents by 35%.
- Executed SIT, UAT, end-to-end, and regression testing across 150+ scenarios; worked with 9+ cross-functional stakeholders on 100+ defects and took 50+ through resolution and retesting.
- On an enterprise PP/MM rollout, identified 5+ critical defects before go-live across 3+ testing cycles, reducing post-deployment issues by 20%.
- Supported PP/MM configuration, master-data validation, cutover, hypercare, and post-go-live issue resolution; promoted twice from Associate to Senior Analyst in under 3.5 years.
- Owned functional requirements for SAP report and feature enhancements, translating client needs into functional design documents; partnered with ABAP developers and SD/Finance teams to define requirements, resolve dependencies, and validate solutions through functional testing, SIT, UAT, and handover.

INDEPENDENT PRODUCT DESIGN PROJECTS | 2025 - PRESENT

Atelier | B2B SaaS concept — Designed a shared campaign-management model for Agency, Brand, and Creator roles; modelled 14 lifecycle stages across 6 phases and 4 creator visibility states, with assignment-level status and human-reviewed AI decision support.

Quest | AI-assisted productivity game — Designed 3 re-entry choices and a Resting state to replace the missed-task loss mechanic; made smaller-step AI suggestions optional, editable, and off by default. Built using AI-assisted development.

ToneMatch | Beauty discovery concept — Designed a personalized journey from skin-tone, undertone, and seasonal-colour profiling to foundation matching and cross-brand recommendations; reviewed 4 products and explored brand-controlled kit pricing.

BookMyShow | UX redesign — Redesigned 4 uncertainty scenarios—high-demand sale, cancellation, refund, and unclear final price—with before-and-after treatments, including queue and refund-timeline clarity.

EDUCATION & CERTIFICATIONS

B.E. Information Science & Engineering | JSS Academy of Technical Education, Bengaluru | 2016–2020

Google UX Design Professional Certificate

SKILLS

Design: Product Design, UX/UI, Interaction Design, User Flows, Information Architecture, Prototyping, Workflow & State Modelling

Product: Requirements Analysis, Functional Specifications, Systems Thinking, Stakeholder Collaboration, UAT & QA, Root-Cause Analysis

Tools: Figma, Framer, Adobe Creative Cloud (Photoshop, Illustrator, After Effects), Jira, Notion, AI-Assisted Prototyping & Development

Domain: Manufacturing, Supply Chain, Production Planning, Materials Management, SAP S/4HANA, SAP ECC
